RELEVANT EXPERIENCE

Junior Front-End Developer

Zone, a Cognizant business

📅 September 2021 - July 2023

- I was responsible for implementing designs across multiple themes for Electrolux E-commerce store

SCSS | Git | Agile

- I was part of a team focused on enhancing a web app for table reservations at Greene King pubs. The app received around 40 million yearly visits, resulting in 2.5 million bookings and over £150 million in revenue

React.js | SCSS | Git | Agile

- I was involved in developing an in-house car park booking system. I played a key role in the full software development lifecycle, handling front-end and back-end development, authentication, database management, E2E testing, and production code deployment.

React.js | TailwindCSS | Express.js | Microsoft Identity Platform | PostgreSQL | Cypress | Azure | GitHub

- These projects consisted of teams ranging from 3 to around 15 people in an agile environment.

CAREER OBJECTIVE

Front-end developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure solutions can be delivered on time without compromising quality. With a passion for both personal growth and software development, I regularly take online courses, keep up to date with new tech and create personal projects to learn new languages while sharpening existing skills. I am ready to apply my skills to develop quality solutions with a talented engineering team.
